ACKNOWLEDGMENTS	xii
EXECUTIVE SUMMARY	1
INTRODUCTION	4
Why Coastal Wetlands Are Important	4
The Need to Restore, Enhance, and Create Wetlands	4
Using This Report	5
STUDY AREA	6
General Setting	6
Geology	8
Soils	10
Bathymetry	11
Climate	11
.....	
Tides	11
Salinity	12
Wetlands	12
Nueces River and Delta	13
Oso Creek and Bay	13
Encinal and Live Oak Peninsulas	16
Upper Laguna Madre	16
Mustang Island	16
North Nueces/Corpus Christi Bay	16
Indian Point/Corpus Christi Beach	13
Living Resources	18
Fish and Wildlife	18
Endangered/Threatened Species	20
Historic Land Use and Population	22
Current Land Use and Population	23
METHODS.....	24
RESULTS	26
Overview	26
Site Descriptions and Plans	31
DISCUSSION	127
Site Selection Considerations	127
Functional Assessments	129
POTENTIAL FUNDING PROGRAMS FOR WETLAND RESTORATION, ENHANCEMENT AND CREATION	133
LITERATURE CITED	142
APPENDIX A: Glossary	153
APPENDIX B: Hydric soils list for Nueces County	161
APPENDIX C: Hydric soils list for San Patricio County	163

LIST OF FIGURES

		Page
1	Corpus Christi/Nueces Bay study area boundary	7
2	1992 wetlands in the Nueces River and delta	14
3	1992 wetlands in the Oso Bay/Creek, Encinal Peninsula, upper Laguna Madre, and South Mustang Island area	15
4	1992 wetlands in the North Mustang Island, Live Oak Peninsula, Ingleside, Indian Point and North Corpus Christi/Nueces Bay areas	17
5	Potential wetland restoration, enhancement, and creation sites in the Corpus Christi/Nueces Bay area	27
6	Location of Site 1 for potential wetland enhancement.....	31
7	Location of Site 2 for potential wetland enhancement	34
8	Location of Site 3 for potential wetland enhancement.....	37
9	Location of Site 4 for potential wetland enhancement	40
10	Location of Site 5 for potential wetland enhancement	42
11	Location of Site 6 for potential wetland enhancement.....	46
12	Location of Site 7 for potential wetland enhancement.....	48
13	Location of Site 8 for potential wetland enhancement.....	51
14	Location of Site 9 for potential wetland enhancement.....	53
15	Location of Site 10 for potential wetland enhancement.....	55
16	Location of Site 11 for potential wetland enhancement.....	58
17	Location of Site 12 for potential wetland enhancement.....	60
18	Location of Site 13 for potential wetland enhancement.....	63
19	Location of Site 14 for potential wetland enhancement.....	66
20	Location of Site 15 for potential wetland enhancement.....	68
21	Location of Site 16 for potential wetland enhancement.....	71
22	Location of Site 17 for potential wetland enhancement.....	74
23	Location of Site 18 for potential wetland enhancement.....	76
24	Location of Site 19 for potential wetland enhancement.....	79
25	Location of Site 20 for potential wetland enhancement.....	82
26	Location of Site 21 for potential wetland enhancement.....	84
27	Location of Site 22 and Site 23 for potential wetland enhancement.....	87
28	Location of Site 24 for potential wetland enhancement.....	89
29	Location of Site 25 for potential wetland enhancement.....	92
30	Location of Site 26 for potential wetland enhancement.....	94
31	Location of Site 27 for potential wetland enhancement.....	96
32	Location of Site 28 for potential wetland enhancement.....	99
33	Location of Site 29 for potential wetland enhancement.....	101
34	Location of Site 30 for potential wetland enhancement.....	104
35	Location of Site 31 for potential wetland enhancement.....	106
36	Location of Site 32 for potential wetland enhancement.....	109

37	Location of Site 33 for potential wetland enhancement.....	111
38	Location of Site 34 for potential wetland enhancement.....	113
39	Location of Site 35 for potential wetland enhancement.....	116
40	Location of Site 36 for potential wetland enhancement.....	118
41	Location of Site 37 for potential wetland enhancement.....	120
42	Location of Site 38 for potential wetland enhancement.....	122
43	Location of Site 39 for potential wetland enhancement.....	124

LIST OF TABLES

	Page	
1	Listed endangered, threatened and candidate species within the CCBNEP study area	20
2	Population of major cities in the study area (U. S. Census Bureau, 1990)	23
3	Percent land use by counties in the study area	24
4	Final designated sites and associated wetland systems.....	28
5	Potential functions and values and associated estimated costs for sites	29
